Work Experience

Aug 1999 - present Owner, Director and Management Consultant, Manator Aps

In August 1999 I started as self employed with the firm “KvalitetsService” (translated: “Quality Services”). In 2004 it was transformed into the PLC “Manator Aps”, where I am the owner, director and operating as management consultant.

What I do – and some history:

Since 1999 my consulting services have mainly been about development and implementation of quality and environmental management systems, business process improvements as well as supporting clients with my personal resources - carrying out the related tasks as a consultant or as sourced quality manager.

- As such I have been the clients external project manager, advisor and coach, e.g. working with business and process analysis, project plans, budgets, managing change processes, internal auditing, FMEA, MSA etc., until – as well as after – certification of the management systems, where applicable.

- I am also tutor at Manator Aps’ training courses on implementation and auditing of management systems.

Since 2002, I have been working as sub-contracted ISO 9001 Lead Auditor for Bureau Veritas Certification A/S (BVC). In 2015 my Lead Auditor work was added “TS 16949 Letter of Approval (LoA)”. These are 3rd party audits on ISO 9001 added all requirements of the automotive QMS-standard TS 16949 and its applicable tools. These LoA audits are relevant to companies who want to comply fully with TS 16949, even though they do not have automotive customers.

In 2004 Manator Aps launched a networking service for SME directors *Ledelsessystemer.dk* (translated: *Management Systems*). Also in 2004, Manator Aps acquired a specific risk-analysis tool along with employing the developer of the tool. This partner had the business responsibility for developing the markets for the product. In 2008 the owner established his own company, continuing the cooperation with Manator Aps.

In 2007 Manator Aps launched *Vidensfolk.dk*, a Business Service broker, matching management consultants and other types of ‘knowledge people’ to specific customer requests.

In 2012 Manator Aps re-launched *Ledelsessystemer.dk*. The service now aims at providing relevant news, cases and practical tools and methods for professionals working with QEHS, CSR, Risk and Compliance and management in general, - e.g. managing directors and other key personnel. At *Ledelsessystemer.dk* users can also find suppliers of consulting, training and networking services. We use our own LinkedIn Groups for networking.

Past work experience

- Jan 1999 - Jun 1999** **Employed at LindPlast A/S, Vejle, Denmark (packaging) as Quality and Hygiene Coordinator** with the responsibility for developing and implementing a quality and hygiene management system. Referring to the Managing Director and the Technical Manager.
- Dec 1996 - Nov 1998** **Employed at DEVI A/S, Vejle, Denmark (electrical floor heating systems) as Quality Engineer** with the responsibility for specific areas of developing and implementing a quality management system, continuous quality improvement, incoming inspection, calibration of measuring equipment, internal system and process auditing etc.. Referring to the Quality Manager.
- Sep 1995 - Nov 1996** **Employed at Nordex Energy A/S, Give, Denmark (wind turbines) as Quality Manager** with the overall responsibility for maintaining and continuously improving the quality management system, as well as other related responsibilities. Referring to the Managing Director.
- Feb 1991 - Aug 1995** **Employed at Union Engineering A/S, Fredericia, Denmark (carbon dioxide extraction plants etc.) as Quality Project Manager** with the responsibility for developing and implementing a quality management system. Referring to the Managing Director and the Technical Manager.

Network experience

- May 2003 - Dec 2004** **Chairman of a project steering committee, initiated by the Council of Fredericia, Denmark, as a part of the city's Business Development Policy.** Responsibility for developing and implementing a framework to enhance networking between companies in the city and in the region, as well as between business and trade and the city's municipal system.
- Jan 2001 – Mar 2006** **Board member / Chairman of a private regional network for consultants in Denmark.** Medium sized network of a variety of consulting firms.
- Jan 2004 –** **Initiator and member of a private network for consultants working with management systems and Lean in Denmark.** Small business focused network group.
- Mar 2004 –** **Manator Aps's network service for professionals (Ledelsessystemer.dk).** I initiated a network group of SME managing directors. The vision for this network service was to form several groups for managing directors as well as groups for quality managers, production managers etc..
- In 2012 Manator Aps re-launched *Ledelsessystemer.dk* (*translated: Management Systems*). The service now aims at providing relevant news, cases and practical methods for professionals working with QEHS, CSR, Risk and Compliance and management in general, - e.g. Managing Directors and other key personnel. At *Ledelsessystemer.dk* users can find suppliers of consulting, training and networking services. We use our own LinkedIn Groups for networking.
- Aug 2007 –** **Manator Aps's broker service for professional Business Service 'knowledge people' (Vidensfolk.dk).** Manator ApS operates a broker service, based on our large network of professional management consultants and other knowledge-based service sectors.
